Winter 2008

## iLASIK

Imagine seeing the world without the burden of glasses and contacts. iLASIK has made this a reality for millions of patients...and you could be next! At Valley Eye Associates, we offer the most advanced LASIK technology the world has to offer – Custom Blade-Free iLASIK - and Dr. Vrabcic is among a select group of surgeons in the nation to offer it. iLASIK uses computer-guided precision to completely customize your treatment...leading to outstanding visual outcomes with many patients seeing better than they did with their glasses and contacts. In fact, over 94% of Dr. Vrabcic's iLASIK patients see better than 20/20! Blade-free iLASIK offers unsurpassed outcomes, a premium level of safety and the peace of mind you deserve.

iLASIK has earned FDA approval to treat the broadest range of vision imperfections ever – including nearsightedness, farsightedness and astigmatism. Having iLASIK with Dr. Vrabcic is now a safe and easy way to make a profound change in your life in a matter of minutes, with lasting benefits you'll enjoy every day. Call (800) 344-4443 today to schedule your FREE VIP iLASIK Consultation (\$150 value) – you've got nothing to lose, except of course your glasses and contacts!

We have been honored multiple times with the Appleton Post-Crescent's "Best of the Valley" awards in Eye Care and LASIK.

## TREATMENT FOR MACULAR DISEASE

Dr. James Syverud at Valley Eye Associates is pleased to offer an exciting treatment for macular disease, including wet macular degeneration, diabetic macular edema and other forms of macular swelling and leakage. The medication is known as Avastin and results thus far have proven extremely hopeful, with most eyes demonstrating stabilization of vision, and some patients even showing dramatic improvement in the appearance of their macular disease. To maintain the best possible vision, diligent follow-up care is extremely important for patients with known or suspected macular disease. Please contact us for more information.

## ANOTHER SUCCESSFUL HAITI MISSION

*(better vision for the world...one patient at a time)*

Ophthalmologists Michael P. Vrabcic, M.D. of Valley Eye Associates and Theda Clark Medical Center and his nephew, Joshua Vrabcic, M.D., Chief Resident of Ophthalmology at the University of Wisconsin, recently returned from Thiotte, a small mountain village located about four hours from Haiti's capital of Port au Prince. Together, they performed 250 eye examinations and restored the sight of nearly 50 patients suffering from advanced cataracts and corneal disease.

For more information on their trip, please visit [www.haitimedicalmission.com](http://www.haitimedicalmission.com).

## 3 CONVENIENT LOCATIONS TO BETTER SERVE YOU:

21 Park Place, Appleton, WI 54914 • 2100 South Kensington Drive, Suite 5, Appleton WI 54915 • 719 Doctors Court, Oshkosh, WI 54901

# Good Vision is Priceless... but we make it affordable!

At Valley Eye Associates, we feel strongly about providing world-class patient care and the most advanced technology...all at affordable prices. That's why we offer a variety of payment options designed to fit every budget. We accept cash, check, credit card and flexible spending accounts, along with most insurance plans. So go ahead, give yourself the gift of better vision – your eyes will see the benefit and at Valley Eye Associates, we make it surprisingly affordable!

## REFRESH AGING EYES AND FEEL 20/20 AGAIN!

Tired of your reading glasses? Suffering from cloudy vision due to cataracts? Valley Eye Associates is proud to offer our patients options that not

only eliminate cataracts but also improve your vision from near to far and everything in between. Multifocal lenses - or "Premium IOLs" - are FDA-approved to reduce your dependence on reading glasses, bifocals and even trifocals. In fact, according to FDA clinical data, there is an 80% chance you will never have to wear glasses again! And Medicare and other insurance companies are now allowing patients who need cataract surgery the option of choosing to upgrade their lens implants to Premium IOL's. Even patients without cataracts are happily discovering that freedom from reading glasses and bifocals is now possible with other advanced options, such as iLASIK Monovision or CK, allowing them to rediscover the vision of their youth. Call (800) 344-4443 today and find out if these exciting options are right for you.
